DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Hirshbrunner (US 4,743,288).

As to Claim 1, Hirshbrunner discloses a synthetic hydrophobic sand formulation (“Soil . . . especially if it is light and/or sandy” of col. 1 lines 10-13 after administration of Hirsbrunner’s composition) exhibiting a penetration period of at least 9 seconds for a drop of 2 molar ethanol under a minimal ethanol drop test (the penetration limitation is implied since the formulation is described as “protection against wind and water erosion” at col. 1 lines 35-36) wherein at least a portion of the sand formulation is treated with humic acid (col. 1 line 57).

Response to Arguments

Applicant's arguments filed 10 February 2003 have been fully considered but they are not persuasive. Applicant has added the limitation of humic acid. Examiner has modified the rejection to take this limitations into account.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Taki et al. discloses in the art a soil hardening composition.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
